

# Specials / Lantern

The ultimate aesthetic appeal

Lantern roofs consist of a roof in two tiers. The different levels are separated by a row of small windows adding a feeling of height and presence to the overall structure. The use of glass rather than polycarbonate also increases light levels and gives you an uninterrupted view of the sky above.

If you are looking to increase the sense of interior space within your conservatory and you want to create a majestic visual appeal - a Lantern roof will give you the perfect finishing touch.
